Profile

Cybersecurity student specializing in Vulnerability Assessment and Penetration Testing (VAPT). Skilled in web application security testing, network analysis, and security automation using Python. Hands-on experience with OWASP Top 10, vulnerability scanning, and security reporting.

Education

Chitkara University

2023–2027

Bachelor of Engineering in Computer Science

Relevant Coursework: Data Structures & Algorithms, Network Security, Cryptography, Operating Systems, OOP

Projects

AI Phishing Detection & Sandbox Analysis System

Jan 2026 – Present

- Developed an AI-driven phishing detection system using **Python and Scikit-Learn**, achieving **93% accuracy** on large-scale URL datasets.
- Implemented automated sandbox scanning by integrating **VirusTotal API**, reducing manual URL analysis effort by **40%**.
- Designed feature extraction pipelines to detect **entropy-based anomalies, suspicious domains, and homograph spoofing attacks**.
- Built a **Streamlit-based dashboard** with real-time analysis and downloadable **PDF security audit reports**.

Network Traffic Analyser

Sep 2025 – Oct 2025

- Developed a real-time network traffic analysis tool using **Python, Scapy, and Wireshark APIs** to detect suspicious activity and anomalies.
- Implemented **packet sniffing, protocol classification, and intrusion detection** techniques to identify potential threats.
- Identified suspicious network behavior **simulating basic penetration testing scenarios**.
- Analysed **TCP/IP packets** including **DNS** and **HTTP/HTTPS** traffic patterns to identify potential exploitation attempts.

Skills

- Programming Languages:** Java, Python, bash (basic), HTML, CSS, JS.
- Web & Backend:** Node.js, REST APIs
- Operating Systems** – Windows, Linux (Kali Linux)
- Security Tools:** Burp Suite, OWASP ZAP, Nmap, Wireshark, Gobuster, Metasploit (basic), VirusTotal
- Soft Skills:** Technical report writing, Logical vulnerability analysis, Research-oriented mindset, Collaborative problem solving

Certifications

- Identity Security Leader – SailPoint**
SailPoint Technologies - Completed: Nov 2025
- Introduction to Cybersecurity**
CISCO Networking Academy - Completed: Oct 2024

Achievements

- EY–DSCI National CTF Hackathon 2025 — Top 40 out of 150+ teams
