## PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in Python development, security analysis, automation, and technical documentation. Strong interest in privacy, data protection, compliance, and responsible handling of information in technology environments. Experienced in building security-focused projects, analyzing findings, and creating structured reports. Eager to contribute analytical, communication, and problem-solving skills in a Privacy Analyst Internship role.

## TECHNICAL SKILLS

**Security Testing & Analysis:** Burp Suite, Nmap, Wireshark, Metasploit, Gobuster

**Privacy & Compliance:** GDPR (Learning), CCPA/CPRA (Learning), DPDPA (Learning), Privacy-by-Design Concepts, Data Governance Fundamentals

**Programming & Scripting:** Java, Python

**Security Concepts:** Cryptography, Application Security, Network Security, Vulnerability Assessment, OWASP Top 10

**Documentation & Reporting:** Technical Documentation, Research Analysis, Process Documentation, Report Writing

**Operating Systems:** Kali Linux, Windows

## PRIVACY & DATA GOVERNANCE LEARNING

- Studying GDPR, CCPA/CPRA, and India's Digital Personal Data Protection Act (DPDPA).
- Exploring consent management, data subject rights, privacy-by-design, and data lifecycle management concepts.
- Maintaining structured notes and research summaries on privacy frameworks and compliance practices.

## PROJECTS

**CyberSentinel** | AI-Powered Defense Against Digital Deception

- Developed a Python-based phishing detection system to classify suspicious URLs using machine learning techniques.
- Built feature-engineering pipelines around URL entropy, domain patterns, and spoofing indicators, achieving 93% detection accuracy.
- Integrated VirusTotal APIs to automate security checks and support structured threat-analysis workflows.
- Built a Streamlit dashboard for reporting and visibility into investigation results.

**VulnForge** | Find the Flaw, Fortify the Code

- Performed security assessments on DVWA and OWASP Juice Shop learning environments.
- Documented findings related to SQL Injection, XSS, authentication weaknesses, and security misconfigurations using OWASP Top 10 guidelines.
- Used Burp Suite, OWASP ZAP, Gobuster, and Nmap for reconnaissance, traffic analysis, and validation.

## EDUCATION

**CHITKARA UNIVERSITY** | Aug 2023 - Aug 2027

Bachelor of Engineering (Computer Science Engineering – Cybersecurity)

**Relevant Coursework:** Information Security, Network Security, Cryptography, Operating Systems, Data Structures & Algorithms, Object-Oriented Programming.

## ACHIEVEMENTS

- Secured 9<sup>th</sup> rank out of 272 teams in MythX CTF (CTF7) by KIET University
- DSCI/EY AISS CTF Hackathon by DSCI & EY

## CERTIFICATIONS

- Junior Cybersecurity Analyst by CISCO
- Foundations of Cybersecurity by GOOGLE on COURSERA
- Identity Security Leader – SailPoint Technologies
